

E-BIKE TOURS

Some things can only be seen from a bicycle

Sardinia offers a large number of itineraries to discover by bike, which are not always easy to identify and follow. We will find the right route for you, whether you are an explorer, a mountain biker or if the bike is serving as the means to reach other activities.

CAPO FIGARI TOUR

The departure of this tour is from the Gulf of Marinella or from Porto Rotondo for a longer experience. After just a few minutes you see the whole gulf from an elevated point of view and then move towards the splendid beach of Cala Sabina. The route continues until the view opens up over the gulf of Olbia with Golfo Aranci, Capo Figari, Figarolo and the majestic Tavolara. Continue through Baia Caddinas, with its characteristic stone houses and then to the third beach of Golfo Aranci and across the entire town. Then Cala Moresca from which the 3 km climb to the top of Capo Figari starts - and it is precisely on this climb that our e-bikes will show you what they allow you to do. The spectacle from the top of Capo Figari leaves you breathless.
