CATAMARAN EXCURSIONS

Two hulls are better than one: less waves, more comfort and space for guests

A day on a sailing catamaran among the islands of the La Maddalena archipelago to discover the most beautiful offerings in Sardinia.

After a short sail you will reach the islands where you can dive into the turquoise waters, explore paths immersed in the Mediterranean scrub and relax on the white beaches or on the large sundecks of the catamaran.

During the day you can enjoy a small aperitif and a tasty lunch created with local products and accompanied by excellent wine. The itinerary includes two or three stops, based on the weather and day conditions.
