FISHING EXCURSIONS

Exclusive itineraries on equipped fisher boats to discover the best spots

The fishing spots are located throughout the Northeastern Sardinian coast. Here you can practice all the various deep-sea fishing techniques and it is not unusual to come across large predators such as tuna, amberjack and swordfish.

The choice of fishing spots varies according to the seasons and weather and sea conditions. The area offers numerous shoals rich in dentex, grouper and amberjack.

The starting point is in Porto Rotondo and the boat used for the fishing trips can vary according to the request. Among the available activities we offer: live trolling, tuna drifting, light drifting, deep bottom fishing, squid fishing and much more.

At the end of each outing you can end the day with a dip in the splendid waters of the Costa Smeralda.

DURATION 8 hours

Exclusive use for small groups
of 4 to 10 people

PRICE starting from € 600 per day depending on the season
